## Father Darkleaf

BY CALVIN ROBINSON

Azaleas in bloom are an adornment of late April. See lots of them in and around Appomattox. Not enough to justify naming an Azalea Queen and have a festival, but enough to make everyone proud that is is Spring. Garden Week is being observed. Many attractive homes and gardens are bieng visited on special tours. When God created man He placed him in a Garden, and I have often wondered what plants, what flowers and vegetables were in that Garden. We know that there was an apple tree, but surely there must have been roses and other flowers. I hope we will have a better growing season this year than last, when everything was below par. I have planted a few seed, but nothing up yet. One small tree in my yard is loaded with tent caterpillars, and with the help of hungry birds I am giving them a lot of discouragement.

* * *

Sunday was the anniversary of the birth and the death of William Shakespeare, the giant of English literature. He was born April 23, 1564 and died April 23, 1616.

* * *

Neighbors were telling me of a recent trip to Plains, Georgia. I asked if they saw Billy Carter and the answer was "yes."

* * *

Delightful just came in with a 1966 copy of **The Times-Virginian**, sent by Mrs. Fred Robertson. Thanks. Biggest advertiser that issue was West End Super Market on Route 460, and I noted the food prices even before I read Darkleaf.

Daylight Saving Time starts at 2 a.m. Sunday. Most will change their clocks and watches upon retiring Saturday night.

* * *

Most lawnmowing is done on week ends and mine must have been the only idle mower in town last week end. I just was not in the mood to cut grass, but must get at it before the week is over. Manana is always a good day. Gee, I bought a plastic owl and will attach it to a pole in the garden soon as seeds emerge. The catalog said it would scare prowling mice and such.

* * *

Another busy week end for our fine volunteer firemen and rescue squad members. I lost count of the number of times the alarm sounded but was proud of how quickly help was on the way.

* * *

My friend Charlie Carter was telling me about one of his hobbies. He has a metal detector and has found many, many items.

* * *

Still reading the large quantity of material about Slippery Rock College sent me by a valued reader in Youngstown, Ohio. Now has about 6,000 students. It seems that in the early days some Indians were attacking a group of settlers and as they attempted to cross a stream of water, barefooted, kept slipping off the rocks, giving the settlers time to regroup and stave off the attack. The creek was therefore named Slippery Rock and so was the school later established there.

* * *

Lovely sight . . . dogwoods in bloom. Wish we had more of them. Alas, my very large magnolia tree is in need of intensive care and I do not know what to do.

The travel season really never stops but more of it is coming our way. Make Our Growing Town also a Friendly Town and encourage visitors to linger awhile. Thanks for reading and seeya next week.

Thomasville Furniture Industries, Inc., award six scholarships each year to graduating seniors whose parents are employees of the company. Only six scholarships from the entire corporation are awarded and this year two Appomattox County High School seniors are recipients of scholarships through the Armstrong Furniture plant located here.

The T. Austin Finch Scholarships, awarded to sons and daughters of employees at the local plant, have been presented to Connie Murray and Walker Covington. In the above photo are, left to right, Mrs. James Murray and her daughter, Connie, and Walker Covington and his father, Mr. Beryl Covington. Connie is the daughter of Mr. and Mrs. James Murray. She plans to enter Longwood College in the fall and major in Physical Education. Walker is the son of Mr. and Mrs. Beryl Covington. He plans to enter The College of William and Mary in the fall and major in Pre-Law.

The scholarships are awarded based on merit qualifications and needs of the applicant and take into account good moral character of students.

With only six scholarships awarded by the entire corporation of Thomasville Furniture Industries, Inc., it is extra good to know that two of these are going to ACHS seniors.

## Officers And Directors Elected For Development Corp.

New officers and directors were elected at the annual dinner-meeting of the Appomattox County Area Development Corporation held on Wednesday evening of last week at Maudes Restaurant. They are shown in above photo.

According to J. A. Smith, President, there were 62 members in the corporation last year and he stressed the need for all business persons and citizens interested in the future development of Appomattox County to become members of the Appomattox County Development Corporation.

Bruce Cowan, Assistant Plant Manager, Armstrong Furniture's Appomattox Plant, was guest speaker for the evening.

Cowan said there are approximately 750 hourly employees at this time and 100 salaried employees at the Armstrong plant here in Appomattox. They come here to work from a radius of thirty-five to forty miles and they come from all parts of the country.

Cowan said they all are happy with Appomattox and are enjoying making our town their home.

"Our weekly payroll is now over $150,000," Cowan said and added that in support of the county they buy supplies from local businesses whenever possible.

Cowan also had high praise for the Appomattox County Rescue Squad and for the help they have given them. There have been relatively few industrial accidents since Armstrong began operation, especially according to the number of people they employ.

He noted that sales have been a lot better than anticipated since they have been in Appomattox and they have added some new lines.

J. E. Jamerson & sons, general contractors, are now in the process of adding on a small addition to the plant, Cowan said, and in the near future a large contract will be let for another 140,000 square feet of floor space. The completion date for the addition will probably be in early 1979.

## Jaycees Say "Let's Set The Facts Straight"

This article is in response to a public statement made by The Chairman of the Recreation Committee of the Appomattox Town Council at the April 10, 1978 meeting of the Appomattox Town Council, and reported in the April 13, 1978 issue of the **Times-Virginian** and a later issue of the Lynchburg **News**. The portion of the article concerning the Appomattox County Jaycees and the Appomattox Town Ballfield was stated as follows:

"Some maintenance will be required to get the ball field in playing condition as the local Jaycees really left a "mess" following a rodeo they sponsored some time ago. Some grading will be done but the town does not plan to spend much money at this time on this facility."

After looking into this matter the Appomattox County Jaycees are satisfied that this is a true and accurate report of what was said by one of the Appomattox Town Council members at their regular meeting and fruther feel that it was the right and duty of the **Times-Virginian** to print this information.

At this time the Appomattox County Jaycees would like to take a moment to set the record straight. An accurate account of what exactly occured between the Appomattox County Jaycees and the Appomattox Town Council in reference to the Town Ball Park is as follows:

At the regular meeting of the Appomattox Town Council on Monday, August 11, 1975 at 7:30 several members of the Appomattox County Jaycees met with Council to discuss use of the ball park by the Jaycees for the purpose of presenting a rodeo to be held on August 23 and 24, 1975. Council granted permission for the use of the ball park which specified certain terms and conditions to be met in restoring the Town Ball Park to its condition prior to the rodeo. The terms and conditions were as follows:

1. 1,000 pounds 10-10-10 fertilizer per acre.
2. 150 pounds Kentucky 31 fescue per acre.
3. A donation to be made on the bills in leiu of the bill sent to the Appomattox County Jaycees in the amount of $323.41.
4. That a two week time limit be set on completion of grading and seeding, weather permitting.

From the terms of the above agreement, it would be logical that the Appomattox Town Council and the Appomattox Jaycees understood that the field would incur some damage however as most of you all remember the County was hit with a freak rainy spell for this time of the year resulting in more damage than was expected.

Mr. Bob Alexander, the owner of the Diamond Rodeo, agreed to pay $150.00 for restoration of the field. Mr. Alexander lived up to his agreement and paid $150.00 for this restoration. After the rodeo had moved out of town and the weather cleared several Jaycees, along with the help and equipment of local farmers, went to work on the field. This work consisted mainly of hours and hours of disking to level the field, getting out all the ruts left by the rodeo, cars, trucks, etc.
